Company Introduction

Valencia Marble is an interesting success story that started its journey as a small sized business with few employees in November 2000 and grew up to be a second to none marble factory in the GCC region at our present day.

The Valencia family is proud to have had the chance in accompanying the growth of this beloved country and rise with every project where we worked hard to execute.

Among a lot of projects that was the talk of the town and some that are a landmark in our tremendous city, lies our pride, that we had the chance to be part of this success in the construction revolution of our beautiful UAE.

Yet we still treat every new project in a unique way for to provide our valued clients the same commitment that we have proven in our past projects,

At Valencia Marble, we think it's not hard to get to the top however it's a hard responsibility to stay at the top. This would be our pledge to our clients whom we will strive to fulfill their needs in order to gain their satisfaction and together we will achieve our goals.

Vision

Valencia Marble Factory is committed to upholding the highest standards with respect to:

- The Quality of our products and service
- Our values and ethics
- Up to date programs for Risk and Waste management
- The health and safety of our employees and community by accomplishing Zero LTI.

Mission

Valencia Marble Factory is committed to deliver high quality, complete, modern natural stone solutions and designs.

We achieve this through superior products and services, rapid customer support, technical expertise, partnerships, and advanced technologies.

Our quality and business objectives are designed to challenge the organization through continual improvement, innovation, and instilling a results oriented corporate culture.

Our Products
